Double Dutch Flavours

Indian Tonic

Tonic water, the classic pairing for gin, has a love/hate reputation. Our aim was to create a tonic water that rewarded, rather than punished, the palate, so we began by brightening the top of the quinine flavour with pink grapefruit and then we deepened the lower notes with a subtle hint of juniper berry to lengthen the finish.

Skinny Tonic

Our skinny tonic has 60% fewer calories than the classic variety. This zesty and rewarding low calorie tonic is satisfying enough to drink alone but also round out the flavour of white spirits like gin and vodka superbly. With pink grapefruit brining piquancy to the first taste and juniper berry balancing quinines crispness with a rounded aftertaste, there's nothing skinny about this slimline mixer.

Double Lemon

Like all of our flavours, stays in the theme of everything double, that is double as delicious and double as refreshing. Our vision is that lemonade should never be boring - which is why the new Double Lemon is a blend of lemon with a whisper of lime. But that's only half the mixology - the other half is using quassia to give the hint of bitterness that makes the best lemonade.
